

MAHMOOD ASADI

AI-Native Technical Leader

Enterprise-grade systems, governance-first execution
Cyprus (open to relocation) • mahmood@asadi.ai • linkedin.com/in/mahmoodasadi1 • asadi.ai

PROFESSIONAL SUMMARY

AI-native technical leader who ships enterprise products fast without sacrificing governance. Built and deployed 6 production platforms across fintech, edtech, mining/GeoTech, and AI infrastructure using vendor-neutral, LLM-assisted multi-agent workflows. 10+ years of domain depth in brokerage systems: CRM, dealing desk intelligence, client/partner portals, social trading, payments, and online trading platform integrations. Combines architect-level systems thinking with hands-on execution and an intensive delivery cadence.

SIGNATURE STRENGTHS

- Agentic delivery:** multi-agent workflows with shared state, structured handoffs, fail-safe defaults, and human checkpoints
- Enterprise readiness:** RBAC, auditability, multi-tenant isolation, evidence-first delivery
- Fintech depth:** broker operations, commissions/IB, payments, online trading platform integrations
- Build velocity:** near-daily iteration and frequent deploys in tight build cycles

PRODUCTS SHIPPED (6 ACROSS 4 INDUSTRIES)

Product	Industry	Built In	Description
Truvesta	Fintech	3 weeks	Dealing desk intelligence: real-time risk signals, exposure heatmaps, scenario simulation, online trading platform integration
